## DETAILED ACTION

### *Drawings*

1. FIG. 1 and FIG. 2 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

3. Claims 1 thru 3, and 13 thru 17 are rejected under 35 U.S.C. 102(a) as being anticipated by Applicant's admitted prior art. The Applicant's admitted prior art discloses (see, for example, FIG. 1 and FIG. 2) a TFT type optical sensor (image detector) comprising a sensor (conductive object detection pattern) S1, a light source 8, sensing part (sensor) 6, power source 4, and controller 2. The power source supplies power to the light source. In FIG. 2, the Applicant's admitted prior art shows the sensor as a switch. When the switch is closed (current flowing through the conductive object detection pattern), the controller receives a signal and the controller then supplies a signal to the electrical power source. The Examiner considers the sensor as a conductive object detection pattern since the switch will only turn on when the switch detects a conductive material between its electrode terminals.

***Allowable Subject Matter***

4. Claims 4 thru 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

5. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.
